EXPERIENCE

MU20 – School of Opportunity (https://www.mu20.co/) <i>Growth, Strategy & AI Analyst Intern</i> - Led Muniversiti/MU20's strategic overhaul, boosting efficiency by 35% and research productivity by 55% through AI software and GPT bots implementations. - Conducted market analysis and 200+ customer interviews to drive social media growth and tech-focused strategies. Developed innovative partnerships, including a Netflix-inspired proposal, showcasing expertise in market insights, strategic planning, and user acquisition. - Managed a flagship project involving 3000+ students and 200+ school principals, and led ASEAN projects in entrepreneurship and hackathons, authoring 15+ research reports.	April 2024 – June 2024 Indore, India
Turing – The Techno-Learning Club (@turing.club) <i>Core</i> - Designed and implemented activities, competitions, and workshops to enhance student engagement with emerging technologies such as AI, IoT, and blockchain. - Selected as the sole 2nd-year student out of a batch of 300 to lead all technical operations, including software development, system integration, and event automation, for the 2024-25 academic year. - Currently spearheading the planning, resource allocation, and execution of the Annual Techfest at SVKM's NMIMS Indore, leveraging technical expertise to optimize event management systems and ensure seamless execution.	July 2024 – Present Indore, India
YouthGenex (@youthgenex.in) <i>Business Development Associate</i> - Spearheaded three events, collectively engaging over 600 participants. - Directed social media initiatives and managed a team of over 10 members. - Oversaw communications, logistics, and sponsorship acquisition.	April 2023 – July 2023 Indore, India

PROJECTS

Multilingual Sign Language Recognition Model

2024

-Multilingual Sign Language Recognition: Real-time translation of ASL, ISL, and other regional sign languages into English text using deep learning and computer vision.

- Speech-to-Sign Translation: Converts spoken English into animated ISL gestures for accessible conversations.

-Real-Time Gesture Recognition: MediaPipe Hands and OpenCV ensure accurate hand tracking and sign language interpretation.

Java-Based Quiz Application (with GUI and Timer)

-Java, Swing, OOP

-Developed a desktop-based quiz application using Java Swing that presents multiple-choice questions to the user with a timer for each question. The application features a dynamic GUI, radio buttons for selecting answers, real-time countdown per question using a Timer, and automatic score tracking and display at the end of the quiz.

Travel Itinerary Website (Full-Stack)

-HTML, CSS, JavaScript, Node.js, SQL

-Developed a Full Stack Website consisting of functioning pages and buttons, for travel package booking and browsing packages. Stores information in SQL databases.
